

DCM-345S

Dual Purpose Cleaning Vacuum

The DCM-345S vacuum is made for removing waste, scale, water deposits in pipes, along with HVAC ducts, ventilation etc. It features a large 15 Gallon tank, (3) 1.5HP. 115volt electric motor, high air flow (360CFM) and strong suction (88") waterlift. A HEPA filter can be added which is rated at 99.97%.

This light-weight, multi-tasking vacuum can be moved easily (weighs 65lbs)

How to clean pipes:

Using the TCM-series pipe cleaning machine, attach the flexible shaft to the vacuum hose. Insert both into the pipe, the flexible shaft will grind, descale and clean the pipe while the DCM-345S removes water, moisture, scaling and debris at the same time leaving the pipe ready for resurfacing.

HEPA-5 layers of filtration can be added

Multi-tasking Motors. Dial the correct CFM

Portable, light-weight 15 gallon tank

Built-in water dump valve

Heavy Duty casters

Specifications

- Horsepower (3)1.5HP (115v motor ea.)
- Power Single Ph, 115v 60HZ
- CFM 360
- Static Lift 88"
- Filtration 5 stage system
- Weight 65 lbs.
- Height 46"
- Removes Water, moisture, waste, scaling, roots, debris etc.
- Electrical 110/220v, 50/60HZ
